

HIRE A SCIENTIST WHO THINKS LIKE A SAILOR TO GROW YOUR PLANTS.

WHY?

Because sailors understand how to work with nature. Instead of wearing themselves out with a paddle, they hoist a sail and work with the enormously powerful forces of the winds at sea, which are already blowing, and are as reliable as the tide. This is working with nature in perfection.

AND OUR SCIENTISTS BRING THIS SAME ATTITUDE TO DESIGNING YOUR NUTRIENTS.

We don't just drop a phosphorous bomb into your root zone. Our scientists work painstakingly to understand the plant – and the whole web of life that surrounds it – carefully and clearly, in order to help it grow to its full potential.

IGUANA JUICE IS A NATURAL FERTILIZER THAT WILL DIRECT THE MOST POWERFUL FORCES OF NATURAL GROWTH INTO YOUR PLANTS LIKE A SAIL DIRECTS WIND.

And Iguana Juice, available in both grow and bloom versions, is a one-part nutrient formula. It's as easy as can be. Just measure, and pour. And watch carefully as your plants begin to grow the way you want them to.

It's also worth saying that Iguana Juice is quadruple filtered through a special heat pressurized system. That way, you won't notice any unpleasant odor, and it will move easily through any system without clogging it.

IGUANA JUICE WAS DEVELOPED FOR THE TYPES OF PLANTS YOU GROW.

Natural and organic-based, Iguana Juice is designed specifically for what you grow. It is not a generic fertilizer. And it is backed up by 1,000s of plant-specific tissue sample tests.

IT'S ALSO BACKED UP BY A 100% MONEY-BACK GUARANTEE.

Visit your local hydro store and ask for Iguana Juice by Advanced Nutrients today. It comes in one of two bottles: grow or bloom. In either case, if you use Iguana Juice in your garden, and you're not completely satisfied, return it with proof of purchase for a full and immediate refund.

Read what growers are saying about Iguana Juice Grow & Bloom!

✉ **Tim Balogh, Gabriola Island** "I mix up some Iguana Juice Grow and Voodoo Juice in four liters of water and fertilize the more advanced seedlings. They seem to thrive on the stuff, and their white roots are sticking out from the bottoms of the bio-degradable pots."

✉ **Kaptain Kindbud, Amazon Verified Purchase** "Iguana Juice is one of the best organic nutrients that u can buy. It is safe for your girls. It wont burn them. Unlike some of the chemical nutrients... This is my 6th grow using it and I will use it until I find something better, however I might be waiting a while."

✉ **Matt, Amazon Verified Purchase** "... It QUADRUPLED my production! I used a 2 gallon mixture of it which is only 30 ml, once a week, this made the 40\$ price tag more bearable. The two gallons fertilized 1 grape tomato, 2 jet star, 1 Arkansas Traveller heirloom, 4 cucumbers, 2 bell peppers, an eggplant and 2 pickler cukes. It makes these plants fruit like crazy!"
