-  **Denise, from Bennington, Vermont** "As a forest mushroom harvester, I already knew about fungi. It's a very amazing life form that can spread for hundreds of yards underground. Thanks for giving me the chance to give myself a mini-fungi network in my hydroponics garden."
-  **Calvin, from Seattle, Washington** "I like how you guys are always a step ahead. I used it as a foliar spray and got rid of gray mold that had been bugging me for a couple of crop cycles."
-  **Groomer** "Piranha and Tarantula are great products probably some of the best in AN's line-up. I wouldn't be caught growing without them."
