

There's a War Going On In Your Root Zone

And you're going to need more than ferocious, blood-thirsty warriors to win it.

"So they've got us surrounded, good! Now we can fire in any direction, those bastards won't get away this time!"

- *Chesty Puller, USMC*

VOODOO JUICE

You also need to set up a smart infrastructure. Read on to find out how:

In nature, a plant's root zone, or "rhizosphere" is a complex battleground of harmful and helpful bacteria.

In human-controlled growing environments, this rhizosphere is absolutely critical to manage. This is the place where billions of tiny microbes break down material so that it can be used by your plants. These tiny helpers also fight off pathogens and harmful bacteria.

But unless your rhizosphere is properly inoculated, it won't ever reach the state of health and vigor that makes truly amazing yields possible. Because your plants will always be battling a certain amount of intruders. This takes time and energy away from doing what you want them to do: grow.

Introducing Voodoo Juice by Advanced Nutrients!

Voodoo Juice has been carefully developed to optimize your rhizosphere, completely inoculating your plants' root zone. That way, there won't be any intruders to worry about in the first place.

Your plants will be able to feed freely, without interruption. And the helpful bacteria that would normally be busy fighting, can instead work on breaking down rough material to feed your plants... so they can grow larger, and heavier. These tiny helpers will build strong, steady feeding routes and with all the time and energy freed up from fighting off intruders, they can break down tremendous amounts of food for your plants.

Food that was there the whole time you've been growing... but without an optimized rhizosphere, wasn't available before.

Grow With A World-Class Rhizosphere... Risk-Free!

To see what it's like to grow plants that can feed as often as they like, without wasting energy on fighting microbial pathogens and pests, visit your local hydro store today and ask for Voodoo Juice by Advanced Nutrients! If you're not blown away with the results, return with proof of purchase for a full and immediate refund.

Read what growers are saying about Voodoo Juice!

Jorge, Pima Country, Arizona "I live in the desert near Tucson. I grow outdoors and two big problems are heat and dry, sandy soil. After using Voodoo, the plants were wilting a lot less and their color was much better. When I removed them at the end of the season, their roots were better than any plant I've ever grown. I'm sold."

Shaun Abalateo "I love Voodoo Juice. It gets my root mass to explode. Big Bud is great as well as Bud Candy!"

Amy Carpenter Schares "Oh I forgot to tell ya...I also love the Advanced Nutrients' Voodoo Juice. It really kick starts my babies, makes a big ball of roots and that makes a big plant. Then ya have a big harvest!!!!!"
